

CAREERS BRIEF

SILENT FOUNDRY

Build real products at the intersection of brand, product & capital.

We make brand soul

real.

A cross-border venture studio turning brand identity into physical products.

WHO WE ARE

Builders who've shipped real products.

- Former Yamaha designers
- Factory-floor engineers
- Agency-trained brand strategists
- Founders with track records

WHAT WE'RE BUILDING

A studio, not an agency.

We don't pitch decks and hand them over. We extract what makes a brand matter and build it into products people can hold, use, and live with — carrying real ownership from idea to shelf.

WHO WE WANT

People who make things real.

BUILDERS

You ship. Design, engineering, product, brand.

OPERATORS

You work cross-border and get things done.

OWNERS

You want skin in the game, not just a job.

Come build with us.
