

PARTNER DECK

SILENT FOUNDRY

For brands with soul, ready to make something real.

You have the brand.

We build the product.

Extracted from your DNA. Engineered. Manufactured. Brought to market.

THE GAP

The soul is there. The system isn't.

Your brand already has the audience, the story, and the equity. What it doesn't have is the industrial engine to turn that identity into premium physical products people actually want to own.

HOW WE BUILD WITH YOU

Three moves, one engine.

01 EXTRACT

We draw the parts of your brand worth making real.

02 TRANSLATE

Design and engineering turn it into a product with a real spec and cost.

03 MAKE REAL

Cross-border manufacturing brings it to market at premium quality.

WHAT YOU GET

One partner, the whole journey.

Design & Engineering

Product design and real engineering, not just concepts.

Cross-border Manufacturing

Premium production anchored in China.

Market Entry

A route to market, including China.

One Accountable Team

Brand to shelf, handled end to end.

CROSS-BORDER BY DESIGN

**HONG KONG · SHANGHAI · MELBOURNE ·
COPENHAGEN**

Manufacturing depth where it's made. Brand and market reach where it sells.

Let's build together.
